## APC 6

**APC6** is a left/right invisible cabinet hanger with 2 semi-circular pins Ø15 mm especially conceived for automatic assembly.

**APC6** grants high performances even without its fixing on the top panel. It can be installed on cabinets with side panels of minimum 16 mm and with a minimum sanitary gap of 15 mm.

**APC6** allows a vertical adjustment up to 18 mm and an in-depth adjustment of maximum 31 mm. The adjustments can be carried out from the inside of the cabinet by using a standard PZ2 screwdriver.

Also featured in the **APC** family are 1 type of wall plate and 2 types of wall bars made of very thick zinc-coated steel and hardened by punched impressions. Wall bars and wall plates feature oval holes which facilitate the correct positioning and give possibility to carry out the horizontal adjustment.

Also available 2 different cover caps: one round version for Ø20 mm hole and one square version for double Ø12 mm holes.

### FEATURES AND BENEFITS

**LOADING CAPACITY:** 65 KG PER PIECE from internal tests.

**AUTOMATIC ASSEMBLY:** especially conceived for the automatic installation on the cabinet.

**WIDE ADJUSTMENT RANGE:** vertical and in-depth adjustments.

**ONE COVER CAP:** only one hole is needed to provide access to all adjustments.

UNI EN 15939:2014 - 65 kg per piece

*Certificates available on request.*

### INSTALLATION UNDER THE CABINET TOP

recommended fixing  
countersunk head wood  
screws Ø3x40 mm

### INSTALLATION ON THE WALL

It is the responsibility of the customer:

- to ensure that the wall is of a suitable quality to hold the unit fixing in place.
- to use the proper hardware fittings according to the construction of the wall.

For more specific information, please refer to the **WARNINGS** section at the end of the catalogue.
